Care For Work Environments[®]

Ecolution[®] Pro CLEANER DEGREASER

PRODUCT OVERVIEW :

TOUGH CLEANER

Ecolution[®] Pro Cleaner Degreaser is designed to attack even the toughest accumulated greases and soils emulsifying them so they are easily rinsed or wiped away. Its super concentrated formula handles any cleaning and degreasing task from light- and medium-duty cleaning of walls, countertops, and garage and factory floors, all the way up to heavily-soiled and greasy parts and equipment.

FORMULATED FOR COST SAVINGS

Ecolution Pro Cleaner Degreaser is super-concentrated meaning you use less product to get the job done, saving money compared to cheap ready-to-use degreasers. Ecolution Pro Cleaner Degreaser is designed specifically for use in all of State's One Solution™ dilution control equipment, which provides consistent, accurate dilution every time. No more hand mixing and waste. Dispense into spray bottles, mop buckets, pressure washers and auto scrubber machines. Ecolution Pro Cleaner Degreaser can also be used with the One Solution foaming equipment for large cleaning jobs.

SAFE, SUSTAINABLE, EFFECTIVE

Ecolution Pro Cleaner Degreaser's performance and versatility are matched only by its safety. A neutral pH with no fragrance or harsh chemical odor and a formula that is non-corrosive and non-flammable makes this one of the safest degreasers available. Ecolution Pro Cleaner Degreaser's green-certified formula has undergone rigorous testing to assure its human and environmental safety and to ensure that it works as well as any conventional degreaser.

DIRECTIONS FOR USE :

For light-duty cleaning: Dilute 2 ounces (1:64) Ecolution Pro Cleaner Degreaser to one gallon of cold tap water. Apply to surface, then wipe and rinse surface clean.

For medium-duty cleaning: Dilute 4 ounces (1:32) Ecolution Pro Cleaner Degreaser to one gallon of cold tap water. Apply to surface, then agitate with cloth or brush if necessary, and wipe or rinse clean.

For heavy-cleaning: Dilute 8 ounces (1:16) Ecolution Pro Cleaner Degreaser to one gallon of cold tap water. Apply to surface, agitate with brush if necessary, and rinse clean.

For extra-heavy cleaning: Dilute 16 ounces (1:8) Ecolution Pro Cleaner Degreaser to one gallon of cold tap water. Apply to surface, agitate with brush if necessary, and rinse clean.

Pressure sprayer: Dilute 16 ounces (1:8), of Ecolution Pro Cleaner Degreaser to one gallon cold tap water. Spray on soiled area and let the solution penetrate for several minutes on heavily-soiled areas. Rinse or wipe clean as needed.

NOTE: Will not harm metal surfaces. Because this is a heavy-duty degreaser, care should be utilized on painted surfaces.

NOTE: For food plants, exposed surfaces must be thoroughly rinsed with potable water before re-use.

Please review label and SDS for all product directions, precautions and first aid information.

TECHNICAL DATA :

APPEARANCE: clear blue-green liquid

ODOR: mild, no fragrance added

pH: 7.0 - 8.0 (diluted)

SHELF LIFE: 2 years

PACKAGING

119537	260 GL Tote
