# State FRESH ZONE™

## STATE FRESH ZONE

State Fresh Zone is an odor eliminator. Its highly concentrated formula contains a powerful odor eliminating additive, designed specifically to neutralize odors caused by decomposing organic material such as rotting garbage or human waste. State Fresh Zone is not a masking agent and is strong enough to attack and neutralize odors. Along with the odor eliminator, Fresh Zone comes with three potent fragrance options - Morning Fresh™, Crisp Linen and Sweet Sunsation™.

State Fresh Zone is available in concentrate or a ready-to-use (RTU) product. In its concentrated form, it provides powerful odor neutralization with dilution rates as low as 1:200 parts product to water. State Fresh Zone RTU is used in customer locations where a water source is unavailable.

## APPLICATIONS

State Fresh Zone eliminates odors common to trash chutes, transfer stations, food processing applications, rendering plants, wastewater and sludge separation facilities, or any other similar processes that generate odor.

## DIRECTIONS FOR USE:

State Fresh Zone is designed to be used with the State Fresh Zone Industrial Fogging System. For best results, State Fresh Zone should be applied with a maximum 5 micron fog particle size to ensure efficient odor neutralization.

Use the following dilution rates as a general guideline\* for use of the concentrated Fresh Zone product – targeted dilution rates range from 1:5 – 1:128. Note: proportioning with dilution equipment can vary with water pressure.

Manual	Automatic
1:10	1:48
1:20	1:94
1:30	1:128

\*The recommended dilution and scent strength can vary based on the application. Speak to a State Account Manager today to help assess your environment.

Nozzle placement is crucial to not only the efficacy of the system, but the safety of property or persons nearby. Angle nozzles toward the inside of the container or chute and/or away from walkways and painted surfaces. The fragrance and/or moisture can affect painted surfaces or create slip hazards.

## TECHNICAL DATA:

**APPEARANCE:** clear liquid

**pH CONCENTRATE:** 7-8

**pH RTU:** 7-8

**ODOR:** Morning Fresh™, Crisp Linen or Sweet Sunsation™

## PACKAGING

	GL4	D5	D20	D55	T260
